

Make an Imprint Textile Recycling Program

Powered by Give Back Box

What is Give Back Box?

Give Back Box operates as the logistical muscle behind many large retailer donation programs by connecting businesses with charities across the US and abroad. They provide consumers with an easy way to donate old clothing and household items (or in our case extra samples or damaged inventory), therefore extending the life of donations and alleviating landfill overflow. Give Back Box works with charities that support causes like domestic violence, mental health, and economic growth.

What can I donate, and when?

This program is designed to provide a solution for textile waste in our industry, therefore you can donate sample overflow, old or damaged inventory, displays, etc..! Of course, if you have old clothes to get rid of at home those donations are always welcome.

This program will live as a year-round effort under the Make an Imprint umbrella, and there is **no limit** on how many labels you can download. This means you can continuously send in as many boxes as you need to, as often as you need to!

How do I send in my donation?

For US based donators, please visit this site to download your pre-paid shipping label: <https://www.givebackbox.com/ssactivewear>. Once you've packed your recycled box to the brim, attach your label and drop off your box at a UPS location.

SHIP IT OUT

Where is my donation going and what happens to it?

The boxes are routed directly to the nearest participating local charity organization. Donated items are sorted and sold by the participating charity. The revenues are used to help fund community-based programs, including job training, employment placement services and support services such as financial education and transportation.

What is weight limit and box size requirement for my donation?

The maximum weight is 70 pounds. The combined length and girth of a piece (the length of its longest side plus the distance around its thickest part) may not exceed 108 inches. Please do not send large electronics, any liquids, fragile, hazardous, or volatile items, or ammunition in the boxes.

Can I choose the charity that gets my donation?

You sure can! If you choose to select which charity receives your donation, you will be asked to cover the \$15 shipping cost. You can select a charity by visiting this site: <https://givebackbox.shop/>.

Is there a fee for donating?

There is no cost to participate, however if you select one of Give Back Box's partner charities to receive your donation rather than sending it straight to Give Back Box, there is a \$15 shipping fee. Rest assured that Give Back Box has a well thought out plan to make sure all participating charities receive your donation and will be able to use it based on seasonality and need.

But what about carbon emissions?

Give Back Box operates using reverse logistic solutions, meaning your donation will only get to the charity if there is already a truck going that way. This prevents extra driving, which means less carbon emissions, and more clean air!
